

Safety data sheet

Complies with Regulation (EC) No. 1907/2006 (REACH) as amended by Regulation (EU) 2015/830

Food Grade OXYGEN

Revision date: 10/14/2021 Issue date: 10/14/2021 Version: 6.0

SDS reference: EIGA097A

SECTION 1: Identification of the substance/mixture and company/undertaking

1.1. Product identifier

OXYGEN Trade name EIGA097A MSDS No.

Chemical description

CAS number: 7782-44-7 N°ONF: 1072

EC number: 231-956-9 Listed in Annex IV/V of REACH, exempt from registration

Registration number Chemical formula

1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant uses identified Industrial and professional. Carry out a risk analysis before use

> Test or calibration gas Welding, cutting and brazing. Chemical reaction/synthesis Protective gas for welding processes.

Water treatment. Lasing gases.

Use in the manufacture of electronic or photovoltaic components.

Laboratory use Food applications

Contact the supplier for more information on use

Uses advised against Consumer use

1.3. Information regarding the supplier of the safety data sheet

Company identification SARL RAYANOX

ZA Bethioua Wilaya of Oran, Algeria

Tel: 041-79-35-22 Fax: 041-79-32-23 Contact@rayanox.co sarlrayanox@gmail.com

1.4. Emergency call number

Emergency call number Tel: +21365550342

SECTION 2: Hazard Identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP]

Oxidizing gases, Category 1 H270 H280

Gas under pressure: Compressed gas

- Intervention:

2.2. Label elements

Labeling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard pictograms (CLP)

Signal word (CLP)

Hazard statements (CLP) : H270 - May cause or aggravate a fire; oxidant.

: H281 - Contains gas under pressure; may explode if heated.

Precautionary statements (CLP)

- Prevention: P220 - Keep away from combustible materials. P244 - No oil or grease on taps and fittings.

P370+P376 - In the event of fire: close the leak if it can be done without danger.

– Storage : P403 - Store in a well-ventilated area.

2.3. Other dangers

Issue date: 10/14/2021 Replaces sheet: 4.0 Revision date: 10/14/2021 Version: 6.0

SDS reference: EIGA097A

: Not classified as PBT or vPvB.

SECTION 3: Composition/information on ingredients

3.1. Substances

NAME	Product identifier	%	Impurities				Classification according to Regulation (EC) No. 1272/2008 [CLP]
Oxygen	(CAS No. 7782-44-7 (EC No.) 231-956-9	99	CO ≤10ppm	CO2 ≤300ppm	H2O ≤500ppm	THC ≤100ppm	Ox. Gas 1, H270 Press. Gas (Ref. Liq.), H281

Does not contain other components or impurities which could modify the classification of the product

3.2. Mixtures: Not applicable

SECTION 4: First aid

Skin contact

4.1. Description of first aid

- Inhalation Move the victim to an uncontaminated area, putting on a breathing apparatus

Individual autonomy (ARI). Keep the victim warm and at rest. Call a doctor. Perform cardiopulmonary resuscitation if the victim stops breathing.

Evacuate the victim to a non-contaminated area.

No adverse effects expected with this product.

Eye contact
 Ingestion
 No adverse effects expected with this product.
 Ingestion is not considered a possible mode of exposure

4.2. Most important symptoms and effects, both acute and delayed

Continued inhalation of concentrations above 75% may cause nausea, dizziness, difficulty

breathing and convulsions.

Refer to section 11.

4.3. Indication of any immediate medical attention and special treatment needed

: None).

SECTION 5: Fire-fighting measures

5.1. Extinguishing media

Suitable extinguishing agents Water spray or cloud

The product does not burn, use fire-fighting measures appropriate for the surrounding fire

Unsuitable extinguishing agents None).

5.2. Special hazards arising from the substance or mixture

Specific risks Maintains combustion.

Exposure to fire may cause containers to rupture and explode

Hazardous combustion products None).

5.3. Advice for firefighters

Special protective equipment for firefighters

Specific methods Use extinguishing media suitable for the surrounding fire. Exposure to fire and heat may cause gas

containers to rupture. Cool exposed containers with water spray from a protected location. Do not

allow watering water used in emergency cases to flow into the gutters.

If possible, stop the gas flow.

Use water spray or cloud to reduce the fumes to the ground if possible

In the event of a leak, do not spray the container with water. Water the surrounding area (from a

protected location) to contain the fire.

Move containers from fire area if it can be done without risk.

Protective clothing and self-contained breathing equipment for firefighters

Standard EN 469: protective clothing for firefighters. Standard EN 659: Protective gloves

For firefighters

SECTION 6: Measures to be taken in the event of accidental release

6.1. Personal precautions, protective equipment and emergency procedures

For non-rescuers Act according to the local emergency plan

Try to stop the leak Evacuate the area.

SARL RAYANOX

ZA Bethioua Wilaya of Oran,

Algeria. Tel: 041-79-35-22/ Fax: 041-79-32-23 2/7

EN: French

For first aiders

Food Grade OXYGEN

Issue date: 10/14/2021 Replaces sheet: 4.0 Revision date: 10/14/2021 Version: 6.0 SDS reference: EIGA097A

> Eliminate sources of ignition Ensure adequate air ventilation.

See section 8 of the SDS for more information on personal protective equipment

Check the concentration of the released product.

Wear a self-contained breathing apparatus (SCBA) when entering the area unless you have

verified that it is safe

See section 5.3 of the SDS for more information

6.2. Precautions for environmental protection

Try to stop the leak.

Liquid spills can cause embrittlement of building materials

6.3. Methods and material for containment and cleaning up

Ventilate the area

6.4. Reference to other SECTIONS

See also sections 8 and 13

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Safety when using the product

The product must be handled in accordance with good industrial hygiene and safety procedures.

Only persons with appropriate experience and training should handle gases under pressure.

Consider adding pressure safety valve(s) to the installation.

You ensure that the entire gas installation has been (or is regularly) checked for the absence of

leaks, before use

Do not smoke while handling the product.

Keep equipment free of oil and grease

Do not use oil or grease.

Use only specified equipment appropriate for this product and its operating pressure and

temperature. Contact your gas supplier if in doubt.

Use only lubricants and seals approved for oxygen service Use only with cleaned equipment approved for oxygen use and calculated for cylinder pressures

Avoid the return of water, acids and alkalis.

Do not breathe the gas.

Refer to the supplier's instructions for handling the container. Safety when handling the gas container

Prohibit products from rising into the container

Protect cylinders from physical damage, do not pull, roll, slide, drop To move the bottles even a short distance, use a cart (bottle rolls,

etc.), designed for transporting bottles

Leave the tap protection cap in place until the container is again secured either by a wall or support

or placed in a container or placed in position for use.

If the user encounters any difficulty opening or closing the cylinder valve, the user should

discontinue use and contact the supplier

Never attempt to repair or modify a container valve or its pressure relief devices.

Damaged faucets should be reported immediately to the supplier

Keep tap outlets from containers clean and not contaminated, particularly with oil or water.

If the container has been equipped with one, as soon as it has been disconnected from the installation, replace the cap or the tap outlet cap.

Close the container tap after each use and when empty, even if it is still connected to the

Never attempt to transfer gases from a bottle/container into another container.

Never use a direct flame or electric heater to increase the pressure in the container.

Do not remove or damage the labels put by the supplier to identify the contents of the bottle. Prevent water from being drawn into the container.

Open the tap slowly to avoid a sudden build-up of pressure (water hammer).

7.2. Conditions for safe storage, including any incompatibilities

Follow all local regulations and requirements for container storage.

Containers should not be stored in conditions likely to aggravate corrosion.

Container valve covers or caps must be in place.

Containers must be stored in an upright position and secured to prevent falling.

Containers in stock should be periodically checked for general condition and absence of leaks.

Store the container in a well-ventilated area, at a temperature below 50°C In storage, separate flammable gases and other flammable materials

Store containers in areas not exposed to the risk of fire and away from sources of heat and ignition.

Keep away from combustible materials

7.3. Specific end use(s)

: None).

SDS reference: EIGA097A

SECTION 8: Exposure controls/personal protection

8.1. Control Settings

OEL (Occupational Exposure Limits) : Not available.

DNEL (Derived No Effect Dose) : Not available.

PNEC (Predicted No Effect Concentration(s)) : Not available.

8.2. Exposure controls

8.2.1. Appropriate technical controls

Maintain appropriate exhaust ventilation locally and overall. Pressure equipment should be checked regularly for leaks

Avoid atmospheres enriched in oxygen (>23.5%)

Gas detectors should be used when oxidizing gases are likely to be released

Think about work permits, e.g. for maintenance.

8.2.2. Personal protective equipment

Eye/face protection

A risk analysis of the use of the product must be conducted and documented in all workplaces affected by the use of the product in order to choose personal safety equipment regarding the

identified risks. The following recommendations should be considered

Choose Personal Protective Equipment that complies with recommended EN/ISO standards. Wear tight safety glasses and a face shield when transferring or disconnecting transfer lines.

Standard EN 166 - Individual eye protection - Specifications.

Skin protection

-Hand protection Wear protective gloves when handling gas cylinders.

Standard EN 388-Protective gloves against mechanical risks.

 $We ar \ cold-insulating \ gloves \ during \ transfer \ or \ disconnection \ of \ transfer \ lines.$

Standard EN 511 - Insulating gloves against the cold.

Miscellaneous
 Consider the use of fire-resistant safety clothing.

Standard EN ISO 14116 - Materials with limited flame expansion.

Wear safety shoes when handling cylinders.

Standard EN ISO 20345: Personal Protective Equipment - safety shoes.

Respiratory protection None required for normal use. Self-contained breathing apparatus should be used when working

with this product in confined spaces.

• Thermal risks Wear insulating gloves against the cold. Wear cold-insulating gloves when transferring or breaking

the transfer.

8.2.3. Ambient exposure controls

Refer to local regulations for atmospheric emission restrictions. See Section 13 for specific methods

for treating waste gases.

SECTION 9: Physical and chemical properties

Information on essential physical and chemical properties

Appearance

Physical state at 20°C / 101.3kPa
 Color
 Gaseous
 Colorless.

Smell : Not detectable by odor

Olfactory threshold : Detection of thresholds by smell is subjective and inappropriate for warning in the event of

overexposure

pH : Not applicable to gases and gas mixtures. Melting point / Freezing point : -219°C / -218.4°C

Boiling point :-183°C

Flash point : Not applicable to gases and gas mixtures. Evaporation rate : Not applicable to gases and gas mixtures. Flammability (solid, gas) : Non-flammable.

Explosive limits : Non-flammable.

Vapor pressure [20°C] : Not applicable.

Vapor pressure [50°C] : Not applicable.

Vapor density : Not applicable.

Relative density, liquid (water=1) : 1.1 Relative density, gas (air=1) : 1.1 Water solubility : 39 mg/l

Partition coefficient n-octanol/water (Log Kow) : Not applicable to inorganic gases

Auto-ignition temperature : Non-flammable. Decomposition temperature : Not applicable.

Viscosity : No reliable data available.

Explosive properties : Not applicable.

SARL RAYANOX ZA Bethioua Wilaya of Oran,

Algeria. Tel: 041-79-35-22/ Fax: 041-79-32-23 4/7

 Issue date: 10/14/2021
 Replaces sheet: 4.0
 Revision date: 10/14/2021
 Version: 6.0

SDS reference: EIGA097A

Oxidizing properties : Oxidizing.

Other information

Molar mass 32 g/mol Critical temperature [°C] -118°C Oxygen equivalence coefficient (Ci) 1

SECTION 10: Stability and reactivity

10.1. Reactivity

No reactivity hazard other than the effects described in the sections below

10.2. Chemical stability Stable under normal conditions.

10.3. Possibility of hazardous reactions

Violently oxidizes organic matter.

Risk of explosion if the product spills on structures made of organic materials (e.g. wood or

asphalt).

10.4. Conditions to avoid

Avoid humidity in installations.

10.5. Incompatible materials

May react violently with combustible materials.

May react violently with reducing agents. Keep equipment free of oil and grease

Take into account, in the event that there is inflammation, the potential risk of toxicity due to the

presence of chlorinated or fluorinated polymers in high pressure oxygen pipes

(>30 bar).

For further information on compatibility, refer to ISO 11114.

Materials such as carbon steels, low alloy steels and plastic materials become brittle at low

temperatures and are likely to break. Use

suitable materials resistant to the cryogenic conditions present in the systems of

refrigerated liquefied gases

Consult supplier for specific recommendations

10.6. Hazardous decomposition products

: None).

SECTION 11: Toxicological information

11.1. Information on toxicological effects

acute toxicity

Skin corrosion/irritation
Serious eye damage/eye irritation

Respiratory or skin sensitization Cell mutagenicity

Carcinogenicity
Toxic for reproduction: fertility
Toxic for reproduction: fetus

Specific target organ toxicity — single exposure Specific target organ toxicity — repeated exposure Inhalation hazard

: This product has no known toxicological effects.

: No known effects with this product. : No known effects with this product.

: No known effects with this product. : No known effects with this product. : No known effects with this product.

SECTION 12: Ecological information

12.1. Toxicity

Assessment This product is ecologically safe.

EC50 48h - Daphnia magna [mg/l] No data available.
EC50 72h - Algae [mg/l] No data available.
LC50 96 Hours - fish [mg/l] No data available.

12.2. Persistence and degradability

Assessment This product is ecologically safe.

12.3. Bioaccumulation potential

Assessment This product is ecologically safe.

12.4. Mobility in the ground

Assessment Due to its high volatility, pollution of soil or water by this product is unlikely.

Penetration into the ground not likely.

12.5. Results of PBT and VPVB assessments

Assessment No data available.

SARL RAYANOX EN: French

SDS reference: EIGA097A

12.6. Other adverse effects

Other adverse effects May cause frost damage to vegetation.

Effect on the ozone layer : None).
Effect on global warming : None).

SECTION 13: Disposal Considerations

13.1. Waste treatment methods

Contact the supplier if instructions are needed.

Can be placed in a well-ventilated area

Do not discharge into any location where its accumulation could be hazardous.

Check that the emission levels imposed by local regulations or operating permits are not exceeded. For further recommendations on gas disposal methods, refer to the EIGA code of practice Doc 30

"Disposal of gases", downloadable from http://www.eiga.eu.
Return the uneaten product to the supplier in its original container

16 05 04: Gases in pressure vessels (including halons) containing substances

Dangerous.

13.2. Further information

The treatment and disposal of waste by third parties must be in accordance with local

and/or national legislation.

SECTION 14: Transport information

14.1. <u>UN number</u>

List of hazardous waste

UN number : 1072

14.2. UN proper shipping name

 Transport by road/rail (ADR/RID)
 OXYGEN Tablet

 Air transport (ICAO-TI / IATA-DGR)
 Oxygen, compressed

 Transport by sea (IMDG)
 OXYGEN, COMPRESSED

14.3. Transport hazard class(es)

Labeling

2.2: Non-flammable, non-toxic gases.

5.1: Oxidizing materials.

Transport by road/rail (ADR/RID)

Class :2
Classification code : 10
Danger no. : 25

Restriction of passage in tunnels : E - Passage prohibited in category E tunnels.

Transport by sea (IMDG)

Class or division / Subsidiary risk(s) : 2.2 (5.1)

14.4. Packing group

Transport by road/rail (ADR/RID) : Not applicable
Air transport (ICAO-TI / IATA-DGR) : Not applicable
Transport by sea (IMDG) : Not applicable

14.5. Environmental hazards

Transport by road/rail (ADR/RID) : None).
Air transport (ICAO-TI / IATA-DGR) : None).
Transport by sea (IMDG) : None).

14.6. Special precautions to be taken by the user

Packaging instruction(s)

Transport by road/rail (ADR/RID) : P203

Air transport (ICAO-TI / IATA-DGR)

Passenger and cargo aircraft: 200Cargo plane only: 200Transport by sea (IMDG)P200

Precautionary measures for transport Avoid transport in vehicles where the load compartment is not separated from the driver's cab.

Ensure that the vehicle driver is aware of the potential hazards of the load and the steps to take in

the event of an accident or other emergency situation.

Before transporting containers:

EN: French

SARL RAYANOX ZA Bethioua Wilaya of Oran,

Algeria

Tel: 041-79-35-22/ Fax: 041-79-32-23

6/7

Issue date: 10/14/2021 Replaces sheet: 4.0 Revision date: 10/14/2021 Version: 6.0 SDS reference: EIGA097A

- Ensure there is adequate ventilation.

- Make sure containers are firmly secured
- Make sure the cylinder valve is closed and not leaking
- Make sure that the faucet outlet protection cap (if it exists) is correctly in place.
- Ensure that the tap protection device (if it exists) is correctly put in place

14.7. Transport in bulk in accordance with Annex II of the Marpol Convention and the IBC Code

: Not applicable.

SECTION 15: Regulatory information

Safety, health and environmental regulations/legislation specific to the substance or mixture

EU regulations

Employment restrictions : None).
Seveso Directive 2012/18/EU (Seveso III) : List.

National guidelines

National regulations: : Ensure that all national or local regulations are followed.

Chemical Safety Assessment

:A Chemical Risk Assessment (CSA) does not need to be carried out for this product.

SECTION 16: Other information

Indications of change : None).

Abbreviations and acronyms

ETA-Estimate of Acute Toxicity

CLP- Classification Labeling Packaging - Regulation (EC) No 1272/2008 relating to classification, labeling and packaging.

REACH - Registration, Evaluation, Authorization and Restriction of Chemicals – Regulation (EC) No 1907/2006 concerning the registration, evaluation and authorization of chemical substances, as well as the restrictions applicable to these substances.
